## WORK EXPERIENCE

### Software engineer

Cimpress India Pvt. Ltd.

08/2020 - 06/2022

Full time employee

Achievements/Tasks

- Utilized **serverless** services on **AWS** to build backend config for adding and scheduling updates to product data via AWS lambda, fargate, and dynamodb using **node.js** to enable recommendation of products on the website.
- Worked on replacing existing lambda services to fargate using **node.js**, which helped in significantly scaling up the number of requests and duration for adding / updating shipping metadata for products.
- Worked on backend services in **node.js** related to integrating sitewide discount coupons, which enabled coupon display on the product listing page of the website.
- Made a UI interface and integrated with backend in the admin app via **react-redux** for businesses to add/update the marketing status of products at a locale level.
- Collaborated with various internal teams and assimilated information to validate product pricing contracts (vendor level), which helped block 60 - 70% of the pricing contract-related issues.

### Full-stack developer

K.J. Somaiya College of engineering

10/2018 - 01/2019

Intern

Achievements/Tasks

- Contributed to make the frontend via **React.js**.
- Made an android interface for scanning and accessing data from **firebase** database & IPFS.

### Web developer

Studyleague I.T. solutions

07/2017 - 08/2017

Intern

Achievements/Tasks

- Dealt with building frontend of book store with **Javascript/HTML/CSS** and making site responsive.

## EDUCATION

### Bachelors in Technology

K.J. Somaiya college of engineering

2016 - 2020

## SKILLS

node.js

AWS

react.js

redux

serverless

## ACHIEVEMENTS

Cimpress Promotion (07/2022 - Present)

- Got promoted to **Senior Software Engineer** within 2 years considering good performance level.

ACM-ICPC

- Represented my college for a national level intercollegiate coding competition at Amritapuri and Pune.

Timeout coding competition

- Won coding competition at the techfair in Ramrao Adik Institute of Technology(Mumbai).

Techgig contests

- Mahawiki coding contest(Rank 174)
- Informatica Code-a-Thon(Rank 254)
- Blockchain contest(Rank 467)
- Tomtom online India hackathon(Rank 570)

JSW scholarship

- Received scholarship worth ₹50,000 per year for 4 years.

## PROJECTS

Dace web app

Dace is a face detection web app built entirely on **reactjs**. Simply upload a photo and this app uses face recognition to extract all of the faces in the photo and ranks users based on no. of uploads.

Mini Apps

Clima app(Detects current temperature of any location), X/O app(Basic app to play X/O), Quiz app(Basic app with 10-12 C++ questions)

## LANGUAGES

Javascript

Professional Working Proficiency

C++

Limited Working Proficiency

Python

Elementary Proficiency

Typescript

Limited Working Proficiency

Java

Elementary Proficiency
